WASHINGTON, Nov. 4.—A storm of marked intensity was central to-night over eastern Colorado and moving east-northeastward. It has been attended by sales over the middle plain States and the central Rocky Mountain region and by rains over the upper Mississippi Valley and the plain States and snow in the Rocky Mountain region. It has been receded by abnormally warm weather over the great central valleys, and it has been followed by much colder weather over the Rocky Mountain and plateau regions. The lowest temperature reported was two below zero this morning at Flagstaff, Ariz. The pressure remained high during Saturday over all sections east of the Misdspip River and high and rising in the far West.

In the middle Atlantic and New Eng-

In the middle Atlantic and New Engnd States the weather will be cloudy with moderate temperature to-morrow and unsettled and mild, with showers, on Monday. In the South Atlantic States the weather will be fair and mild to-morrow and probably Monday. In the East Gulf States, Tennessee and Kentucky cloudiness will increase during temperature and he followed by local -morrow and be followed by local undershowers.
